

DUNETH WIDANAPATHIRANA

COMPUTER NETWORKING UNDERGRADUATE

dunethinduware@gmail.com | portfolio: duneth.me

SUMMARY

Motivated Computer Networking undergraduate with a strong interest in pursuing a Network Engineer role. Possess solid foundations in routing and switching, TCP/IP, and network design principles. Recognized for strong problem-solving abilities, leadership skills, and effective team collaboration in academic projects. A fast learner with a strong willingness to continuously develop technical expertise, currently preparing for CCNA and CompTIA Security+ certifications. Aspiring to become a Network Architect by building scalable, secure, and efficient network infrastructures.

TECHNICAL SKILLS

Cisco Packet Tracer	Network Design	Python
Routing and Switching	Wireshark	Java
TCP/IP	Burp Suite	C++

PROJECT EXPERIENCE

Global Museum Network Project

- Designed and simulated a multi-branch enterprise network infrastructure using Cisco Packet Tracer.
- Implemented routing protocols and VLAN segmentation to ensure secure and efficient communication.
- Applied network design principles to optimize scalability and performance.

Small Office Network Project

- Developed a secure small office network topology with proper IP addressing and subnetting.
- Configured routing and switching to enable reliable internal and external connectivity.
- Conducted traffic analysis using Wireshark for troubleshooting and optimization.

Logistics Management System (Java Project)

- Developed a Java-based logistics management system for handling inventory and shipment tracking.
- Implemented object-oriented programming principles to ensure modular and scalable design.
- Collaborated within a team environment to deliver the project successfully within deadlines.

EDUCATION

BSc (Hons) in Computer Networking (Reading)

University of Bedfordshire

- Routing & Switching
- Network Security
- Data Communication

ADDITIONAL INFORMATION

- Languages:** English, Sinhalese
- Certifications (In Progress):** Cisco Certified Network Associate (CCNA), CompTIA Security+
- Technical Interests:** Network Architecture, Cybersecurity, Cloud Networking
